PROFILE

As a React JS developer, I possess a strong foundation in JavaScript and proficiency in utilizing React JS to develop robust and dynamic user interfaces. My expertise in React components, state management, and lifecycle methods allow me to create scalable and efficient code. I am also skilled in integrating React with web3.0, Redux + toolkit, GraphQL, and other frameworks to develop advanced web applications. Overall, my proficiency in React JS and my dedication to writing clean and maintainable code make me a valuable asset to any team.
