## PERSONAL PROJECTS

### Covid and Pneumonia Prediction Using Chest X-rays - University FYP (09/2021 - 09/2022)

- This Research was focused on finding the best algorithm for the detection of COVID & Pneumonia disease using chest x-rays. I have utilized 4 Algorithms CNN, Inception-v3, DenseNet121 and VGG-16. Their performance was measure on the basis of Precision, Recall, f1-score Accuracy and AUC-ROC.

### E-retail Point Website (02/2023 - Present)

- In this project i have created a website (<https://eretailpoint.com/>) for the company which representing their one of the product. Through this site they advertised their product and got their clients.

### Ready To Munch (02/2023 - Present)

- In this project i work in the front-end team to solve the bugs related to front end. We help to develop any new change in the website or to improve any feature according to the prototype and requirements (<https://readytomunch.com/>)

## ORGANIZATIONS

### SMSami Inc (12/2022 - Present)

Front-end Developer
