EDUCATION

Bachelors in Computer Science University Of Lahore

11/2016 - 06/2022

Courses

- Mobile App Development
- OOP
- AI
- Software Testing and Implementation
- Web Engineering
- Advance Software Engineering

Final Year Project University Of Lahore

09/2021 - 06/2022

fyp

- Our final year project was a mobile app built using React Native with the Expo SDK for the front-end. The back-end utilized Firebase, including Firestore for the document-based database and Firebase Authentication for user authentication. We incorporated livestreaming functionality by implementing Twitch iframes within a WebView. Additionally, we developed a web-based admin panel using Firebase Admin.

WORK EXPERIENCE

Junior Software Engineer Programmers Force

11/2022 - Present

A product based Software Company

Lahore, Pk
