Fahad Ali
Web Development

I am a web developer with experience in the MERN stack. I have also worked as an Odoo developer and React JS developer. I am currently learning Python (Django) for the backend. I am a fast learner and I am always eager to take on new challenges. I am confident that I can be a valuable asset to your team.

Feb - March 2023

Digital Destiny

React Js developer

Experience

Front-end Experience:

I started my web development career by learning the core technologies of HTML, CSS, and JavaScript. Once I had a good understanding of these fundamentals, I started an internship at Codelab, where I worked as a front-end developer for three months. After that, I began learning full-stack development using the MERN stack. I continued my learning by exploring front-end frameworks such as Material UI and Bootstrap.

Odoo Development

I started the web development as a MERN stack developer then i started a paid internship in Odoo (python). Where i worked as a odoo developer and react js developer. With that i am learning the python(django) for the backend. Overall i am in a learning phase of full stack developer.
