WORK EXPERIENCE

FahadTechLab (Recent) - MERN Stack Developer

In my recent projects I developed a portfolio app **FahadTechLab** using React which is hosted at [Vercel.com](https://vercel.com)

- Portfolio Website (www.fahadtechlab.site)
(GitHub: <https://github.com/Fahad-g-awan/portfolio>)
 - Created a personal portfolio website using React.
 - Developed a responsive design to ensure optimal user experience across devices

Global Tech Support (2022-2023 6 Months Internship) - MERN Stack Developer

I have worked as a MERN stack developer for 6 months at GTS. I have a strong understanding of the MERN stack and have used it to develop a variety of web applications.

At GTS, I was responsible for developing and maintaining a variety of web applications. I also worked on a team of developers to create e-commerce website.

My final project at GTS was **movieMRI** which I created from scratch using MERN Stack and hosted it at [Railway.app](https://railway.app)

- MovieMRI—movies, reviews, insights (movieMRI.up.railway.app)
(GitHub: <https://github.com/Fahad-g-awan/movieMRI>)
 - Developed a web application for movie reviews and ratings using MERN stack
 - Implemented CRUD functionalities for both front-end and back-end
 - Designed and developed an intuitive user interface for the website

Butt & Mughal Traders (2016-2022) - Accountant

As an accountant at B&M I utilized my skills in Microsoft excel and Word to manage sales, stock, inventory, invoices, salary incentive sheets, debit, and credit notes, ensuring accuracy and compliance with company policies.

- Handled daily sales for cash, check, and credit, and dealt with customers and field force
- Prepared monthly sales and stock reports for directors and managers using Excel and distribution software.
- Acquired strong skills in time management, professional communication, and working in a team environment.
