HUSNAIN MUNIR

Software Developer

Experienced Software Engineer with 1+ years of MERN stack development expertise. Proficient in JavaScript, React, Node.js, and MongoDB. Developed and maintained small practice projects like an Instagram clone and a blog. Achieved 5-star rating on HackerRank, showcasing strong problem-solving skills. Adhered to Agile methodology for efficient and timely software delivery. Specialized in scalable and cloud-based solutions using AWS services. Committed to continuous learning and staying updated with industry trends.

Work Experience

Web Developer

The MERN stack e-commerce project is a full-stack web application built using MongoDB, Express, React, and Node.js. It incorporates RESTful APIs for seamless communication between the frontend and backend. The project follows the MVC (Model-View-Controller) architectural pattern to ensure modular and maintainable code. It also utilizes AWT (Abstract Window Toolkit) for creating the graphical user interface components. By developing this project, I gained experience in building scalable web applications, implementing APIs, utilizing the MVC architectural pattern, and working with AWT for creating user interfaces.

Intern
Contour Software pvt .Ltd *(3 months)*

During my MERN stack internship, I acquired valuable field knowledge by learning from professionals. Engaging in real-world projects, I developed web applications using JavaScript, React, Node.js, and MongoDB. Collaborating with cross-functional teams, I met project requirements and deadlines, while code reviews and Agile methodologies enhanced my skills. This internship significantly strengthened my understanding of building scalable web applications. I look forward to continuing my growth as a software engineer based on these experiences.

Education History

Bachelor of Science in Computer Science
Institution: Lahore Garrison University
Year of Graduation: 2022

Relevant Skills

- Java Script, HTML 5, CSS, Tailwind,React JS, NodeJS, Mongodb, sql
- Front End & Back End Coding
- Github, Jira
- Proficient in Data Structures, Object-Oriented Programming (OOP).

Volunteer Work and Interests

- **Volunteer** Non-profits, Community events, Coding workshops, Environmental conservation.
- **Interests** Yoga, Bike traveling, Planting
