PAKISTAN

## About Me

"As a front-end developer, I believe that the design and functionality of a website are equally important. With 1+ years of experience, I have honed my skills in HTML, CSS, JavaScript, and React to bring both beauty and efficiency to the forefront of every project. My passion for creating seamless and intuitive user experiences drives me to constantly improve and evolve my skills. I have a proven track record of effectively collaborating with cross-functional teams, from designers to back-end developers, to deliver innovative and visually stunning web applications. I am always on the lookout for new challenges that will not only allow me to make a positive impact, but also help me to grow as a developer."

## Experience

GAME TRAIN 2022....

Trainee Mern Stack Developer

"Building with the MERN Stack:

- Developed and maintained full-stack web applications utilizing MongoDB, Express, React, and Node.js.
- Implemented interactive user interfaces using React, including complex state management and real-time data updates.
- Created custom RESTful APIs with Node.js and Express to seamlessly integrate the front-end and back-end.
- Leveraged MongoDB to efficiently store and retrieve data, optimizing application performance.
- Worked closely with designers and other stakeholders to bring their vision to life, utilizing my skills in HTML, CSS, and JavaScript.

A Few of My Proudest Creations

- Social Media Chat App: Developed a real-time chat application, allowing users to communicate with one another in a secure and seamless manner. Utilized WebSockets and React to create a dynamic and responsive user experience.
- E-Commerce Platform: Built an e-commerce platform, providing a seamless shopping experience for users and streamlining the back-end operations for administrators. Implemented secure payment processing and user authentication using Node.js and Express.
- Social Media Clone: Created a social media platform for local communities, allowing users to connect and share information with one another. Utilized MongoDB to efficiently store and retrieve user data, improving the overall performance of the application."

## Education

2019 2023

University

University Of Agriculture Faisalabad, Pakistan.

Degree

Bachelor's in Computer Science

## Language

Urdu

English

## Expertise

- Front-end and back-end web development
- Code structure and architecture
- Web performance optimization
- Programming languages
