ABOUT

As a MERN stack web developer, I possess a strong foundation in web development principles and have extensive experience in creating dynamic and responsive web applications. My proficiency in React, Node.js, MongoDB, and Express.js has enabled me to develop scalable, robust, and user-friendly web applications that meet business requirements. I have contributed to numerous projects, both independently and as part of a team, and I bring a deep understanding of modern web development practices to the table. With strong problem-solving skills, a keen attention to detail, and a passion for staying current with the latest web technologies, I am confident that I can add value to any development team..

PROFESSIONAL EXPERIENCE

Frag Games by PASHA Mern Stack Developer

Feb 2023 - May 2023

I recently completed a 3-month Bootcamp or Certification , MERN stack development through Techlift and Frag Games, Powered by Pasha (Pakistan Software Association). Throughout the course, I gained in-depth knowledge and hands-on experience in developing web applications using the MERN stack (MongoDB, Express.js, React, and Node.js). I also gained expertise in modern web development practices, such as Redux ,Yup and Formik ,component-based architecture, server-side rendering, and state management
