Enthusiastic, passionate and driven computer scientist. Currently looking to secure a significant position to utilize my strong technical and leadership skills.

Willing to relocate: Anywhere

Work Experience

Software Engineer

Silicon Solutions - Lahore

April 2022 to Present

As a Full-stack Web Developer, I specialize in building responsive, efficient, and scalable web applications using React.js, Redux, Hooks, and other cutting-edge technologies. With my experience in handling and integrating REST APIs and building responsive web pages using Tailwind CSS, Bootstrap, and CSS, I deliver top-notch solutions that meet the needs of my clients and stakeholders. I also have experience in translating Adobe XD and Figma designs into responsive web pages. Also, I have 24+ months of extensive experience in custom WordPress website development customization, design and optimization. Additionally, I have knowledge and experience in developing 3D web applications using Three.js and WebGL.
