OBJECTIVES

Seeking a position of “Front End/Angular Developer” at your esteemed company. I have overall 1 year and 3 months of work experience out of which 9 months of work experience is as a pure Angular Developer. I have already worked in a professional Software-House where, I mainly worked in Angular CLI 2+. I designed the frontend architecture and implemented “Angular Best Practices Design Patterns” and “Facade Architecture” in one of their big projects. I am recently working in Angular CLI 12.0. I have the proven ability to design a big Angular Project from scratch using the above mentioned Architectures. I have extensively worked in Angular using ASP .NET Core Web API as backend data-source.
