JavaScript Developer | 03277252257 | ramazali84@gmail.com | www.linkedin.com/in/ramaz-ali-khan

Profile

Friendly and engaging team player and highly motivated self-starting developer. A multi-tasker worked on various project at a time. Familiar with Web Development and deployment and Application development in various JavaScript Frameworks.

Experience

JAVASCRIPT DEVELOPER | PETSAL TECHNOLOGIES | APRIL 2021 – PRESENT

Here, I worked on various frameworks of JavaScript Angular, Ionic React and React Native manage the front-end of various web Applications and Android Applications.

Projects

TechHGV, Petsaal Technologies

- TechHGV is a Transport management system, mange transport which carry goods from one place to other, a UK based client Project.
- Driver and Vehicle Checks Module.
- Tyre wheel Plan module for vehicles.
- Map integration module to locate a vehicle.
- Driver Signatory Module.
- Accident Reporting Module.
- Fuel & AdBlu usage Module.
- Reports Generating Module of Trailer and Vehicles Wheel Plan.

Tools: Angular, Ionic capacitor Laravel Rest API Git.

Novel Feast, Petsaal Technologies

- Novel Feast is an android Application in which we read various kinds of novels English, French etc.
- Novel Searching Module.
- Chapters Reading Module and review and adding comments.

TecHGV (React-Native), Petsaal Technologies

On demand of client now we have to change Angular/Ionic base project to React Native for better performance so I also work as a react native team member passionately. Same module added to React Native Application and soon deployed on Play Store.

Tools: React, React Naïve, Redux, Rest API, Laravel.
