Cloud Computing and Deployment AWS, Firebase, Docker, Kubernetes	Build Tools and Bundlers Webpack, Babel	Continuous Integration and Deployment Jenkins, Azure DevOps	Other Tools and Frameworks Vite.js, Remix.js

Interests

- Full Stack Web Development
- Mobile Application Development
- Hybrid Application Development
- UI / UX Designing
- Cloud Engineering
- Collaborative Development

Projects

Butterfly Realtors

- Developed and launched the Butterfly Realtors web application, revolutionizing the real estate industry by providing a comprehensive digital platform for property transactions.
- Ensured the mobile-friendly design of the web application, optimizing it for seamless access and usability on smartphones and tablets, enabling users to manage their property transactions on the go.
- This project has allowed me to showcase my ability to collaborate effectively with multidisciplinary teams, implement advanced features, and create a user-centric application in the real estate domain.

WriteMe Notepad

- Developed a responsive and intuitive text editor with formatting options, enabling users to customize the appearance of their notes with font styles, sizes, colors, and bullet points.
- Developed a responsive and intuitive text editor with formatting options, enabling users to customize the appearance of their notes with font styles, sizes, colors, and bullet points.
- Implemented auto-save functionality to ensure that users' work is automatically saved in real-time, preventing the loss of data and providing a seamless writing experience.

The Pixel Trail: A Friend's Footsteps

- A 2D pixel browser game that takes players on a captivating adventure. As the leader of the development team, I spearheaded the creation of this game, focusing on designing an engaging and immersive gameplay experience that combines pixel art aesthetics with a compelling narrative to establish an emotional connection with players.
- Created a dynamic and interactive game world, filled with diverse environments, intriguing characters, and hidden secrets, encouraging players to explore and engage with their surroundings.
- Optimized the game's performance for browser compatibility, ensuring smooth gameplay across various devices and web browsers.
