ABOUT ME

Life as I see is a continuous struggle. Love in its different forms is the driving force in one's life, mine is family i.e parents and brother. I always try to improve my thoughts and remain open to new ideas, it also helped me achieve some goals. During my degree I successfully combined my studies with work and other commitments showing myself to be self-motivated, organized and capable of working under pressure. I have a clear, logical mind with a practical approach to problem solving and a drive to see things through to completion. I enjoy working on my own initiative or in a team. In short, I am reliable, trustworthy, hardworking and eager to learn and have a genuine interest in Computer Science.
