

# ALI HAMZA

Worked At NIAIS as LARAVEL DEVELOPER

I am a skilled Laravel Developer with knowledge of HTML, CSS, Bootstrap, SQL, and RESTful APIs. I have experience in developing and maintaining web applications using Laravel framework. My strong attention to detail, problem-solving skills, and ability to work in a team environment make me an ideal candidate for any Laravel development position.

## Projects

### Virtuoso Solution CMS

Admin & Employee Panel | October 2022 - November 2022

Virtuoso Solution is a web-based content management system (CMS) I developed for a client. The system is designed to create and manage various types of data, including invoices, project details, and employee records. The CMS is built using the Laravel framework, and features a responsive front-end using HTML, CSS, and Bootstrap.

### Truck Dispatch 365

TruckDispatch365 | 05-12-2022 - 22-12-2022

Designed and developed a landing page for a truck dispatching services company called Truckdispatch365.  
Used a template and customized it to display different price packages and services offered by the company.  
Implemented HTML, CSS, and Bootstrap for the front-end.
