## EDUCATION

BS Software Engineering
The University of Lahore
**2018 - 2022**

I.C.S
Punjab Group of colleges
**2014 - 2016**

Matric (Computer Science)
Pakistan Islamia HIgher Secondary
School Sharjah, U.A.E
**2014**

## Profile Summary

As a motivated software engineer with a strong passion for technology and a deep understanding of software development principles. I'm committed to staying up-to-date with the latest industry trends, and thrive in collaborative environments. I'm eager to contribute my skills and creativity to deliver high-quality, innovative solutions.

## EXPERIENCE

### Web Devloper

Techsa                                      **March 2022 - May 2022**

Made Sites on wordpress using elementor

### Final Year Project

SmartHostel App

A mobile application (Android and iOS) that provides a solution to manage the daily records of students in hostels. Hostel managers can maintain a digital record of students check-in and check-out times and room allocations and generate useful reports for decision-making. This application streamlines operations and improves the students experience, making it a valuable tool for any hostel.

- Language (Flutter)
- Database (Firebase by Google)
- QR codes are used for check-in and check-out.
- I've designed the interface for the application.
- I created a database on Firebase and linked it to the project.

## SKILLS

OOP

C++

Python

HTML/CSS

JavaScript
