Asim Hameed

Web Developer

Passionate software engineer with 6 months of training experience in HTML, CSS, JavaScript, Node. js , and Angular. Strong front-end development skills and a solid foundation in software engineering principles. Seeking an entry-level software engineering role to further develop skills and contribute to innovative projects. Eager to work with an organization that offers opportunities for growth and allows me to utilize my education and skills to advance in the field. Committed to taking on challenging roles in a dynamic and competitive environment.
