ABOUT ME

PROFFESIONAL SUMMARY

As a budding web developer, I have gained foundational skills in HTML, CSS, and JavaScript, with an emphasis on creating responsive and visually appealing websites. I have also begun learning React, Python, Node.js, Express, and MongoDB, with a keen interest in utilizing these technologies to build robust web applications.

As an aspiring intern in Node.js and Express, I am eager to apply my growing knowledge and skills towards developing scalable web applications and building APIs. I am excited to take on challenging projects that require real-time data processing and contribute to the development of backend systems that can handle high volumes of traffic.

With a passion for staying up-to-date with the latest web technologies and a commitment to delivering quality work, I am confident that I would be a valuable addition to any team.

WORK EXPERIENCE

I have gained practical experience and honed my skills through personal projects. Over the past few years, I have undertaken various web development projects and experimented with different technologies to create responsive and user-friendly web applications. These projects have allowed me to gain experience in front-end and back-end development, problem-solving, and project management. I have also worked on personal projects using technologies such as Python, Java, and JavaScript. I am a quick learner, a diligent worker, and I am eager to apply my skills and experience in a professional setting.

LEADERSHIP- ACTIVITIES

I have developed strong leadership skills through my experiences in group projects and work environments. In group projects, I have taken charge by motivating team members, delegating tasks, and ensuring that everyone is working towards the same goal. In my work experience, I have been given leadership roles where I trained new employees, organized team-building activities, and managed projects. I am confident in my ability to take charge and lead a team to success.
