PERSONAL PROJECTS

EMPLOYEE MANAGEMENT SYSTEM – Final Year Project (12/2021 - 04/2022)

- My Final year project was an online employee management software named 'EMPLOYEE MANAGEMENT SOFTWARE'. It was built in PHP technology. My role was to Develop Front End (UI) with HTML, CSS, JavaScript, jQuery, and Bootstrap. I built the front end using JavaScript, and for styling I used a CSS framework like Bootstrap.

Ting (06/2022 - 08/2022)

- During my training at Trainhawks I have gained practical experience using React JS while working on the real-world project "Ting" as part of my internship at Trainhawks. The online application Ting is used for managing events. In React JS, I was responsible for creating the user interface using following techniques: ● Components ● Props ● Hooks ● Event handlers ● Routing ● Formik ● API integration ● PostMan

WORK EXPERIENCE

Front End Developer

HashFunnels

01/2023 - Present

Lahore

As a front-end developer, my role is to create visually appealing and responsive web interfaces using HTML, CSS, and JavaScript. I also ensure optimal user experience and accessibility while collaborating with other team members to deliver high-quality products.
