INTRODUCTION

I am a future Computer Engineer from ITU - Information Technology University's 24th graduating class. Throughout the last year, I have engaged in practically all academic societies in addition to earning my degree. I am a very driven individual, and I am always looking for new opportunities to challenge myself. I have worked in Management team for the past year, and I have gained excellent communication skills. Since joining the university. My degree includes both hardware and software, but I will embrace software in the future like software development, web apps etc.

EDUCATION

2020-24	**BS Computer Engineering** Information Technology University of the Punjab (ITU), Lahore
2018-20	**Intermediate in Pre-Engineering** Superior College
2016-18	**Matriculation** A.M.S High School

MAJOR COURSES

- Computer Fundamentals & Programming
