## ABOUT ME

Motivated and passionate front-end web developer with a solid foundation in HTML, CSS, and JavaScript, as well as junior level proficiency in React, Bootstrap, WordPress, and Tailwind CSS. Seeking an internship program or entry-level position in a dynamic and collaborative environment where I can continue to learn and grow my skills while contributing to the success of the team. Dedicated to delivering high-quality, user-friendly web applications that meet business needs and exceed user expectations.

## OBJECTIVES

- To utilize my skills in HTML, CSS, JavaScript, and other relevant front-end technologies to develop user-friendly and responsive websites and applications.
- To apply my expertise in front-end development to create visually appealing and engaging user interfaces that enhance the user experience.
- To collaborate with designers, developers, and other stakeholders to create high-quality web products that meet client requirements and exceed expectations.
- To continually learn and stay up-to-date with emerging front-end technologies and best practices, and to apply this knowledge to improve the quality and efficiency of my work.
- To work in an environment that fosters creativity, innovation, and growth, and to contribute my skills and expertise to help the organization achieve its goals.

## STRENGTH

- Proficiency in HTML, CSS, and JavaScript.
- Skilled in responsive web design.
- Experience with JavaScript frameworks and libraries.
- Knowledge of cross-browser compatibility.
- Understanding of user experience (UX) design principles.
- Strong problem-solving skills.
- Proficiency in version control systems like Git.
- Design awareness and collaboration with designers.
- Commitment to continuous learning.
- Excellent collaboration and communication skills.
