**Thesis Title:** Tailor Online

**Thesis Abstract:** Maintaining various types of tailoring data in today's busy world is a very time taking task. To reduce the burden of maintaining large amounts of data and provide facility to record relevant information of customers and employees, we have created a Web based application. And to provide facilities for the customer to online order by giving measurements. Because nowadays people around the globe wants their dresses and suits to be stitched from the best tailor.

## Peer-Reviewed Publications

- Talha Shahbaz., M Rafeel Khan. (2019). We have developed a web application to provide the facility to the tailors (to maintain customers data) and Customers (to order online).
