A creative problem-solver with excellent communication skills and committed to staying up-to-date with the latest technological advancements. Keen to learn and grow in an organisation that offers a structured and rewarding role of responsibility.

Willing to relocate to: Lahore - -

## Work Experience

---

### Front-end Web Development Internship

DevBatch - Lahore

- Completed a web development internship, where I gained hands-on experience in building and maintaining websites and web applications.
- Gained proficiency in essential web development technologies such as HTML, CSS, and JavaScript, which allowed me to create clean, semantic markup, and interactive, responsive layouts.
- Learned how to make responsive designs that adapt to different screen sizes and devices, ensuring that the website or application looks great and is functional on any device.
- Acquired skills in using design tools such as Adobe Photoshop and XD, which allowed me to work effectively with designers and implement their designs accurately.

## Education

---
