Usman Younas

Web developer

I have always been interested in web development, and I have the necessary skills required for the role. I have a good understanding of HTML, CSS, bootstrap, and laravel. I am currently improving my web development skills by learning various new technologies..

Creating website layouts and user interfaces by using standard HTML/CSS practices. Integrating data from back-end services and databases.

Internships & Experience

2022 - 2023

Kodestudio | City Sheikhupura

Web design / development

Doing 6 months of internship and job at kodestudio software house in Sheikhupura.y internship also taught me the importance of effective communication, collaboration, and teamwork. I had the opportunity to work with a diverse group of individuals, including designers, developers, project managers, which helped me develop essential soft skills that are crucial for success in any professional environment.
Overall, my internship as a web developer was an incredible learning experience that allowed me to apply my skills and knowledge in a real-world setting. I am grateful for the opportunity, and I look forward to using the skills I gained during my internship in my future career.

2019 - 2020

House of Professionals | City Lahore johar town

Trainee

Doing 6 months of web development course at house of professional software house in Lahore.As I am applying for a job as a web developer, I would like to mention that I have completed a 6-month course in web development, which has provided me with a strong foundation in the field. During the course, I learned the fundamentals of web development, including HTML, CSS , and JavaScript. I also gained knowledge in various front-end frameworks such as Tailwind and Bootstrap, which helped me build responsive and user-friendly websites.
Furthermore, the course covered essential back-end technologies, such as Laravel, Mysql DB, which helped me develop server-side applications and manage databases. I also learned about web servers, hosting, and deployment, which helped me understand the importance of website performance, security, and scalability.
